## University Student Safety Task Force Membership

Following are membership lists for Arizona's three public universities' local task forces on student safety as appointed by each university president.

Each task force is charged with examining and enhancing student safety on campus, as well as in the nearby communities where students reside.

Each university task force, as well as the Statewide Task Force on Student Safety, will work with community and university leaders, law enforcement, students and student organizations to address student safety needs that are unique to each university.

The formation of these task forces follows the Board's Sept. 26 discussion about student safety in which each university detailed its activities that promote safe environments both on campus and in communities where students live.

For meeting information or press inquiries regarding a specific task force, please contact each university directly:
